For all your fire safety  
products and services

Assess, prevent, protect

## Fire extinguishers

Fire extinguishers are a crucial part of your fire safety plans, regardless of your business operation.

Abbot Fire Group only supply reliable extinguishers. We can advise on the different types of extinguisher and their uses, and recommend what is best suited for your business needs. Abbot Fire Group have BAFE accreditations, giving you reassurance and peace of mind.

Current recommendations are that all fire extinguishers should be serviced annually, to ensure they are in operable order and can be relied upon should you need to use them.

Extinguishers should also have a visual inspection on a monthly basis by your designated nominated person, usually your fire warden. We can provide advice and training on what they should be looking for when conducting these monthly inspections.

## Service packages

Whether you're having extinguishers installed for the first time and would like a short term service agreement, or have existing extinguishers that require a service, simply give us a call.

There are a range of service packages available. You can choose the level of service commitment you require, from a standard price per extinguisher service, to an all-inclusive parts replacement option, further details can be found at [www.abbotfiregroup.co.uk](http://www.abbotfiregroup.co.uk).

We'd be happy to quote a bespoke solution based on your requirements, email [admin@abbotfiregroup.co.uk](mailto:admin@abbotfiregroup.co.uk) or simply give us a call.

Just call 01280 824111
